Acura Team Penske's 2019 IMSA WeatherTech SportsCar Championship title in the Daytona Prototype International (DPi) class continues a successful legacy of sports car racing that dates back to the beginning of Team Penske in 1966. The title represented the 11th sports car championship in team history, and it added to an impressive year that resulted in a team-record 40 wins, 43 pole positions and additional championships in INDYCAR and Australian Supercars for a cumulative total of 37 titles.

Acura delivers Precision Crafted Performance – a commitment to evocative styling, high performance and innovative engineering, all built on a foundation of exceptional quality and reliability. The Acura lineup features six distinctive models – the RLX premium luxury sedan, the TLX performance luxury sedan, the ILX sport sedan, the five-passenger RDX luxury crossover SUV, the seven-passenger Acura MDX, America's all-time best-selling three-row luxury SUV, and the next-generation, electrified NSX supercar.

Five of the six Acura models sold in North America are made in central Ohio, using domestic and globally-sourced parts, including the ILX and TLX luxury sports sedans (Marysville Auto Plant), the RDX and MDX luxury SUVs (East Liberty Auto Plant) and the Acura NSX supercar, which is built to order at the Performance Manufacturing Center in Marysville, Ohio.
