In addition to the 2019 IMSA WeatherTech Team Championship in the Daytona Prototype International (DPI) category for Acura Team Penske, the No. 7 Acura ARX-05 helped secure the Manufacturer Championship on the strength of three poles (Long Beach, Ontario, Laguna Seca) and five podium finishes (Daytona, Long Beach, Detroit, Laguna Seca and Road Atlanta).

Acura delivers Precision Crafted Performance – a commitment to evocative styling, high performance and innovative engineering, all built on a foundation of exceptional quality and reliability. The Acura lineup features six distinctive models – the RLX premium luxury sedan, the TLX performance luxury sedan, the ILX sport sedan, the five-passenger RDX luxury crossover SUV, the seven-passenger Acura MDX, America's all-time best-selling three-row luxury SUV, and the next-generation, electrified NSX supercar.

Five of the six Acura models sold in North America are made in central Ohio, using domestic and globally-sourced parts, including the ILX and TLX luxury sports sedans (Marysville Auto Plant), the RDX and MDX luxury SUVs (East Liberty Auto Plant) and the Acura NSX supercar, which is built to order at the Performance Manufacturing Center in Marysville, Ohio.
